Then, select the rectangular box on the left side. Select, new application, then Security Officer Application. The applicant will submit payment and print the new Morpho Fingerprinting Form. The applicant then needs to be fingerprinted under their new Applicant ID number. If the applicant had successfully completed a training course, the Instructor can upload the existing test results and photo to the new Applicant ID number. Otherwise, they must search the instructor registry to locate a Certified Security Officer Instructor in their area.

Q 12. How do I renew my Security Officer Certification?

90 days prior to expiration, Security Officers will receive an email prompting them to log back onto their SORA application and fill out the Renewal. They will also receive emails at 60 days and 30 days prior to their expiration date. After logging back into the

system, under the heading “Security Officer,” there is a link to Submit Renewal. The fee for Renewal is \$60. Security Officers must contact an instructor to attend an 8 hour refresher course. Failure to complete the Renewal requirements prior to expiration will cause the Security Officer to start the certification process from the beginning. **It is the Security Officer’s responsibility to make sure their email and home addresses are correct on their profiles.**
